

FINANCIAL ASSISTANCE

The Division administers three state aid programs for airports. The sole funding source for these grants is excise fuel tax revenues on general aviation (GA) gasoline (18¢ per gallon) and for GA jet fuel (2¢ per gallon).

- **Airport Improvement Program (AIP) Matching** funds assist General Aviation (GA) airports in meeting the local match for federal Airport Improvement Program (AIP) grants. The state grant is 2.5% of the AIP amount. Eligible projects must benefit GA and be included in the Capitol Improvement Program (CIP) element of the California Aviation System Plan.
- The **Annual Credit** provides a \$10,000 per year entitlement to eligible publicly-owned, public-use airports (@149) for expenditure at the sponsor's discretion.
- **Acquisition and Development (A&D)** grants are for eligible projects subject to programming and allocation by the CTC. An airport land use commission (ALUC) can receive funding to either prepare or update a comprehensive land use plan (CLUP).
